

You know where, we know how

39,000 frt are on it's way

A ship loader, tripper car and accessories with a total of 39,000 frt, piece weights up to 620 tons and measurements up to 13,685.10 cbm started the voyage from Tallinn and Szczecin to the United States.

Final destination is the Burnside Terminal, a major bulk terminal for coal, bauxite and alumina.

The project is coordinated by Conceptum Logistics USA in cooperation with Conceptum Logistics Germany.

Of course our specialists have been personally in Tallinn and Szczecin to visit the site and to supervise the loading process.
