

You know where, we know how

A ship loading system from Spain and Vietnam to Tokuyama-Kudamatsu, Japan

The first impressions of the ongoing project for clinker production in Japan a cooperation between Conceptum Logistics Germany and USA.

Scope of work is the whole transport chain from EXW Spain / Vietnam to DAP Job Site at Tokuyama including the off-loading and distribution of cargo to the final place of rest/installation/assembly.

The whole project contained about 10,000 ft.
