

You know where, we know how

Another shipment for the Mining Industry

Conceptum Logistics completed another shipment for the Mining Industry – a ship loader from Tianjin/China to Itaqui/Brazil.

We arranged a break-bulk shipment of total 1,370 mtons/16,000 cbm including the biggest piece with 48 mtons and 800 cbm.

This ship loader will be mounted at Itaqui during the next months and after being installed, it will enable the port of Itaqui to increase its possibilities.

So by the support and service of Conceptum Logistics, the local port facilities will increase and due to this life and working quality of the local population will raise up.
